

So, we see everyone is feeling sorry for Mrs Parkinson. It is amazing that everyone falls for her propaganda. We know the facts regarding her recent visit which are rather different to her account of events.

Perhaps everyone will also feel sorry for the elderly recipients of these most unpleasant emails from Mrs Parkinson when they failed to pay the club while on holiday at Los Claveles

Subject: Please please , Think about your actions

Dear Madam

Please, please. Think about your actions as you damn all the other owners with your behaviour on this resort. Some of us have donated and loaned money to support the fantastic work of the committee . My actions are altruistic I am not just trying to protect 'my own holiday'

I am purely on the side of justice. Onagrup are thieves it is they who took your money not the committee. those who pay a criminal company (And then attack the committee who have spent their lives for two years and personal money on the fight to save our resort) are letting us all down . Your behaviour whilst on the resort has not been good Madam and is not reflecting well on you at all. There are many to whom you have spoken who are very upset with the rumours that are being spread. Several of us would ask you please desist before you cost us all our lovely resort that you profess to love. One woman (you) could do cause us to lose this fight after 2 Yrs of backbreaking work to get these crooks out!.

Please spend your time by the pool rethinking you and your families public actions. If you have a beef with the committee then sort it out privately with the committee not publically. Onagrup are rubbing their hands and gloating at your behaviour this is just not right!

The committee have a process in place which protects owners and themselves from allegations of fraud . Did you follow the advice being given ? This is pay the club and receive a phone call a week before you go to assist you within the strategy legally agreed..we all did it and some of us received a refund . Some of us left our money in to support the cause.

If you paid the Club and waited until just before your holiday and then were denied your money. We totally support your distress (although not your behaviour) if you did otherwise than what was asked then I am sorry that was your decision. We all have the right to take the actions we choose to take but we must face the consequences. Threatening behaviour alienate people and are not a good bargaining position . Try a little humility it works wonders. Use your words to fight the true enemy !

Please enjoy the sunshine as we are and be quiet enough is enough you are making enemies.

Your Fellow owners

Subject: Your appalling behaviour!

Madam I understand that others have warned you about your appalling behaviour when on this resort. I was appalled by your behaviour yesterday you make yourself look a total fool by wining on about heart attacks etc etc all because you took a stupid action by paying a bunch of crooks. Your decision, so now suck up and shut up instead of wining on and givving Ona ammunition

How ridiculous can you be ? Your decision to pay and ignore the committee who have busted a gut to protect owners from this takeover. Are you blind can't you see how damaging your behaviour is ? Sitting in front of the crook JJ and carrying on as if they are the Angels and the committee the crooks .stop this now. I am here for the next three weeks and I may decide to record your comments so be careful who you defame, I feel duty bound to pass the recording on to the committee particularly Carol Parkinson who has given her life to this cause and for shameful people like you

Stop now be quiet and don't keep pleading that you are on your own when you have family here!
